

**BEFORE THE UNITED STATES JUDICIAL PANEL
ON MULTIDISTRICT LITIGATION**

IN RE:

1. WDWD # 26-cv-3788 -JCC
2. WCWD # 2:26-cv-09084-RGK-SK

MDL - _____

***PRO SE* PLAINTIFF(S)' MOTION TO TRANSFER ACTIONS TO THE
United States Judicial Panel on Multidistrict Litigation
PURSUANT TO 28 U.S.C. § 1407 FOR COORDINATED OR
CONSOLIDATED PRETRIAL PROCEEDINGS**

Pursuant to 28 U.S.C. § 1407, Plaintiff(s) Sajjad Nasir in the WDWD # 26cv3788 JCC and. 2:26-cv-09084-RGK-SK , case(s) respectfully move(s) this Panel for an Order transferring actions to the United States Judicial Panel on Multidistrict Litigation for coordinated or consolidated pre-trial proceedings.

because:

1. Multiple United States district courts have taken actions that have effectively obstructed or undermined the adjudication of Plaintiff's complaints, resulting in repeated refiling of substantially similar claims in different districts. These actions involve the same core factual allegations and the same principal defendant of alleged human trafficking and forced labor for securities frauds, Equinix Inc. and have created unnecessary procedural fragmentation that warrant transfer and centralization.
2. While Plaintiff was repeatedly obstructed from filing and pursuing the underlying complaints, actions attributed to the principal defendant of alleged human trafficking and forced labor for securities frauds, Equinix Inc., in coordination with certain court personnel, resulted in the initiation of multiple appeals and collateral filings across

various circuits. These filings had the effect of further undermining Plaintiff's complaints and produced adverse orders that do not reflect the underlying factual record.

3. As an additional means of undermining Plaintiff's ability to obtain adjudication of the underlying claims, the principal defendant of alleged human trafficking and forced labor for securities frauds, Equinix Inc., initiated an administrative appeal before an administrative judge. This filing resulted in further adverse orders that appear inconsistent with the factual record and contributed to the ongoing procedural fragmentation of the related actions.
4. The principal defendant of alleged human trafficking and forced labor for securities fraud, Equinix Inc., has repeatedly taken actions that have prevented any court from issuing summonses or authorizing service abroad following Plaintiff's filings. At the same time, the defendant has initiated additional self-filed complaints in multiple districts, resulting in further procedural duplication and adverse orders that do not reflect the underlying factual record.
5. The principal defendant alleged human trafficking and forced labor for securities fraud, Equinix Inc., has caused substantial financial harm to Plaintiff by forcing additional filings and requiring Plaintiff to respond to multiple self-initiated actions and adverse orders. These repeated procedural disruptions have imposed significant and unnecessary financial burdens on Plaintiff and further support the need for transfer and coordinated management.
6. The United States Courts are actively protecting and shielding the alleged offender and mastermind of alleged human trafficking and forced labor Principal defendants Equinix Inc disregarding the federal rules, courts local own rules and international convention of Hague for service abroad.

said Motion is based upon the attached various complaints lodged with WDWD, and WCDC,

Signed this 29 day of July 2026
